

UKRAINE REPORTS ON UKUATOGETHER PARTICIPANTS LEAVING FOR POLAND AND THEN UK TO ATTEND THE 2024 FLEX PROGRAMME IN LONDON

Posted on 22 November 2024

26 children from the Kyiv region began their tourist trip to the United Kingdom of Great Britain and Northern Ireland. These are representatives of pupil and student self-government, as well as children of servicemen of the Armed Forces of Ukraine, who are now defending the Motherland.

During 14 days, children will have the opportunity not only to get acquainted with the cultural and historical monuments of Great Britain, but also to study in educational institutions in the country. The travel program includes excursions to historical, cultural and entertainment centers, as well as visits to iconic London sites, including the Tower of London, the Parliament of the United Kingdom, the University of London UCL, the London Art Gallery and other cultural institutions.

A special part of the program will be a visit to Google, which will provide children with the opportunity to get acquainted with the latest technologies.

This trip was made possible by the fruitful cooperation of the Kyiv Regional State Administration and the charitable organization "UKUA TOGETHER".
